

TSA ANNOUNCES SCHOLARSHIP RECIPIENTS

Now in its third year, the scholarship program is designed for the members and dependents of TSA members. Each of this year's ten 2019 scholarship recipients will receive \$2,000 to spend towards their educational pursuits.

"We are very excited to be able to continue this TSA scholarship program," said Bill Webb, TSA Executive Director. "A primary focus of our organization is to improve the quality of life of our professional truck driver members - both on and off the road - and being able to help the children of our members attain a college education fits perfectly into that priority." GROUND & AIR AMBULANCE SERVICE

Any Ground. Any Air. Anywhere.

Today many Americans tend to believe their health insurance policies cover most, if not all, ambulance expenses. The truth is they likely DO NOT!

Even after insurance, the financial burdens that could arise due to extremely high medical transportation costs are very real.

Did You Know...

- Emergent Ground Ambulance transports can easily surpass \$2,000 and can cost as much as \$5,000.
- Emergent Air Ambulance transports frequently cost more than \$40,000, and can be as high as \$70,000.
- If you are in need of specialized care and can be transported on a non-emergent basis, it is common for a medically equipped plane to cost more than \$20,000.

ONLY MASA MTS provides you:

- Coverage ANYWHERE in all 50 states and Canada
- Coverage for BOTH emergent ground ambulance and air ambulance transport REGARDLESS of the provider
- Non-emergent transport services that are frequently covered inadequately by your insurance, if at all
